me&zoe was created with today's discerning homeowners in mind. We designed a line of vanities that is modern yet classic, high quality yet attainable, and also beautiful and functional. Each piece of furniture is designed in its own unique style with the features we would want in our home.

Our vanities are fully assembled with an all wood box construction with doors that have soft close hinges and drawers that are dovetail construction with soft closing glides.

We also offer the option to include a countertop from our selected color choices. Door and drawer hardware are not included.

*Thank you from me & Zoe*
